SUMMARY

Business Analyst and AI-augmented Data Storyteller with 3+ years of experience bridging strategic business goals and technical execution. Expert in agentic AI systems, LLM-powered automation, and end-to-end data pipelines (AWS, Azure) that convert ambiguous requirements into data-driven decision making and measurable business outcomes. Proven track record deploying GenAI advisory systems, multi-agent orchestration, and RAG-enabled workflows across enterprise consulting, e-commerce, and global financial services.

EDUCATION

University of Illinois Urbana-Champaign — Gies College of Business

Master of Science in Business Analytics (MSBA) | GPA: 3.92/4.0

Aug 2025 – May 2026

Champaign, IL

Chitkara University

Bachelor of Engineering in Computer Science | CGPA: 9.91/10.0

2019 – 2023

Punjab, India

TECHNICAL SKILLS

AI & Data Engineering: Agentic AI, LLM Integration, Multi-Agent Orchestration (Copilot Studio), RAG Pipelines, Prompt Engineering, Power Automate, Python (Pandas, NumPy, Scikit-Learn, FastAPI), SQL (PostgreSQL, MySQL, Azure SQL), AWS (S3, Glue, Lambda, Athena, Redshift), Azure, MongoDB, React, TypeScript, ETL Pipelines

Analytics & Visualization: Power BI (DAX, Power Query), Tableau, Excel, Business Intelligence, Data Visualization, KPI Reporting, GenAI Strategy, A/B Testing, Forecasting, NLP, Statistical Modeling, Jupyter Notebooks

Business Strategy: Stakeholder Management, Cross-Functional Collaboration, Requirements Gathering, Process Automation, Competitive Benchmarking, Agile/Scrum, SAP, Collibra (Data Governance), Jira, Confluence

EXPERIENCE

Bosch Power Tools

Jan 2026 – May 2026

Business Technology Consultant (Client Practicum)

Champaign, IL

- Engineered a full-stack B2B automation system combining Python FastAPI and React + TypeScript, implementing 4-gate identity verification logic against 44,000+ SAP customer records and eliminating manual registration workflows
- Orchestrated integration of 23,600+ SAP master data records into a browser-based validation engine using SheetJS; designed a human-in-the-loop admin workflow with automated SMTP notifications, replacing a fragmented email-based process

Wolters Kluwer

Aug 2025 – Dec 2025

Business Analyst (Client Practicum)

Champaign, IL

- Architected the functional design for a Proactive AI Advisory System using GenAI and LLM pipelines, shifting tax/audit workflows from reactive Q&A to real-time strategic guidance and reducing advisory turnaround time by 25%
- Spearheaded competitive benchmarking across Harvey AI, CoCounsel, and MindBridge; mapped complex tax audit lifecycles across 500+ client accounts to define explainability requirements, validating the client's AI investment roadmap

Upsleek Apparels Pvt Ltd

Oct 2024 – Jun 2025

Senior Data Analyst

Noida, India

- Automated data pipelines using SQL and Python, consolidating sales, inventory, and customer data; designed Tableau and Power BI dashboards with 30+ KPI measures, reducing reporting errors by 35%
- Streamlined recurring reporting with Python scripts and scheduled jobs, saving 15+ hours per week; analyzed campaign performance using statistical modeling and A/B testing, improving marketing ROI by 18%

WNS Global Services

May 2022 – Oct 2024

Data Analyst Intern to Associate Analyst to Senior Associate

Bengaluru, India

- Promoted twice in 2.5 years for delivering high-impact analytics; translated stakeholder requirements into automated SQL queries and Tableau dashboards, reducing manual reporting by 30% across 10+ departments
- Implemented enterprise-wide data governance in Collibra, ensuring compliance and data quality on 1M+ records; executed targeted campaigns using IBM UNICA with 100% pre-launch data accuracy

PROJECTS

Magelli Scout — AI Prospect Intelligence System

Microsoft Copilot Studio | Multi-Agent Orchestration | Power BI | Power Automate | 1st Place, Gies AI for Impact Challenge 2026

- Built a multi-agent agentic AI system on Microsoft Copilot Studio that reads job postings as capability gap signals, scored 64 prospects using a deterministic rubric, and delivered automated weekly intelligence briefs via Power Automate, winning 1st Place at the 24-hour Gies AI for Impact Buildathon

Second Opinion — AI Healthcare Platform

Python | GenAI | LLM Pipelines | COZAD New Venture Competition 2026

- Co-founded an AI-powered tool converting fragmented medical documents into structured clinical summaries using LLM pipelines, reducing chart review time by 40%; conducted 10+ physician discovery interviews and HIPAA compliance research

Project Nexus — Walmart Smart Commerce Strategy

Go-to-Market Strategy | Financial Modeling | Supply Chain | 1st Place, Gies Interdisciplinary Case Competition 2026

- Won a Gies interdisciplinary case competition by building a full go-to-market strategy for Walmart smart commerce: modeled an 86-drone fleet handling 779 daily orders, \$13.7M Year 1 revenue pool, and \$5.28M CapEx plan across CMO, CTO, COO, and CFO workstreams

CERTIFICATIONS

- Prompt Engineering with the OpenAI API (DataCamp)
- Working with the OpenAI API (DataCamp)
- Exploring & Producing Data for Business Decision Making (Coursera)
- Inferential & Predictive Statistics for Business (Coursera)
